

Residential Elevators

WE
Lift Expectations

Waupaca Elevator

Since 1957, Waupaca Elevator Company has been a leading producer of safe, reliable and affordable residential elevators. We manufacture beautifully designed elevators with a full complement of options and accessories that are unmatched in the industry.

Waupaca Elevator is a preferred brand of residential elevator because our quality is exceptional and it is custom made for you. Through our comprehensive dealer network, we help you specify, install and provide service for your elevator.

Our elevators are made with pride in the USA and are engineered to provide years of trouble-free performance. They are handcrafted using the finest quality materials and proven UL or ETL rated digital controls.

We offer comprehensive drawings for your architect or builder and deliver solutions that simplify installation for new construction or retrofitting into an existing home.

Waupaca Elevator cares. We do our very best to insure that we operate our manufacturing facility in a responsible manner. This symbol represents our use of best practices and a commitment to environmental stewardship.

"Our Waupaca Elevator dealer exceeded our expectations in designing the perfect elevator to fit with the décor of our new home. We were delighted with their professionalism throughout the entire process."

Why Waupaca Elevator is right for your home.

Waupaca Elevator offers models to fit every budget with a range of styles and accessories designed to blend perfectly into any home décor.

A Waupaca elevator improves home accessibility allowing you to remain in the home you love for as long as you would like.

A home elevator makes mobility from floor-to-floor safer, easier and more convenient.

A Waupaca elevator can increase your home's resale value and expand its marketability to a wider range of buyers.

Waupaca elevators are installed and serviced by factory trained specialists and are backed by more than 50 years of industry expertise.

Your investment in a Waupaca elevator is secure with a full 3-year limited parts warranty — one of the many reasons more architects and builders specify Waupaca Elevator with confidence.

Waupaca Elevator is a family company dedicated to providing the performance and value you deserve in a residential elevator.

Your local Waupaca Elevator dealer can help you customize an elevator to your specific requirements.

To locate a Waupaca Elevator dealer near you, visit www.WaupacaElevator.com or call **(800) 238-8739**.

Custom Raised Panel Cabs

Your home is a reflection of your personal style. Our custom raised panel cabs allows you to select the hardwood, fixtures and accessories including glass or mirrors to create a design uniquely your own.

Raised Panel Solid-Wood Cabs

Solid wood cabs may be constructed from

our comprehensive selection or any other exotic wood of your choice. We offer ten standard panel designs, or we can create a custom option to match your specific needs. Combinations of wood species and contrasting stains can create beautiful and truly unique designs.

"The Raised Panel model allowed us to customize our elevator to create a design that was perfect for our home. It is very unique and we could not be happier with how it all worked so well."

Elevator Drive Systems

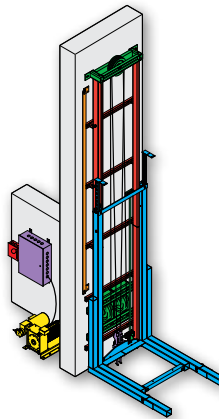

Waupaca Elevator offers a variety of drive systems that are certified to be safe, reliable and provide years of trouble-free service. Most drives require a small space for mechanical operation, or a machine roomless system houses mechanicals in the shaft to accommodate space limitations. Your Waupaca Elevator representative will review your project requirements, budget and local codes to help determine the best choice.

The Paca Series, is an affordable winding drum or hydraulic elevator system with a smooth stable ride. Innovative J-Rail system reduces installation time.

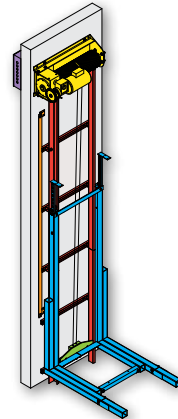

The Excelelevator™ roped hydraulic or winding drum elevator is our most popular residential series offering a smooth and quiet ride.

The Custom-Lift® is a model with a long history of dependability and versatility. It is ideal for new construction or remodeling projects with limited space.

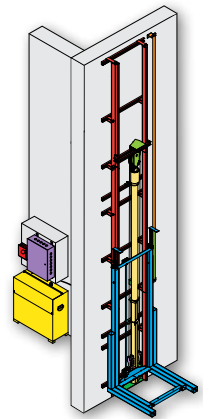

Products and illustrations shown may not be standard.
